Maintenance: **Medium**

Hardiness Zones: 5-9

Uses: Landscape, Cut Flowers, Dried Flowers, Focal Point, Mass Planting

Hydrangea macrophylla 'Sweet Fantasy' bears pretty, speckled, mophead blooms from July to September. Like most hydrangeas, plants grown in alkaline soils produce pink flowers, while those grown in acid soils bear blue flowers.

Hydrangea macrophylla 'Sweet Fantasy' is perfect for growing in a mixed, herbaceous border, especially when used in conjunction with other hydrangeas. It makes an excellent cut flower.
