Spread: 3-5'

Flowers\Flush: Summer (Blooms Jun – Oct)

Plant Type: Shrub

Shrub Type: Deciduous

Flower Shade: White

Foliage: Dark Green

Habit: Rounded

Water: Average

Maintenance: **Medium**

Hardiness Zones: 6-9

Uses: Landscape, Hedge, Focal Point, Mass Planting

With beautiful bridal bouquet-like flower heads of double pure white, Wedding Gown starts as a lace cap and fills into a mophead adding elegance to the hydrangea market. Earlier than most other varieties, it will bloom early spring and reblooms all summer into the fall. The purity of the white blooms is not affected by pH, so the flowers will not turn pink or blue.

Sterile, low maintenance.
